## Procuring Prosthetic Funding

Get registered with Pharmacare

Determine Pharmacare deductible

Russell Prosthetics will apply for Pharmacare Funding on your behalf

Determine payment method for outstanding balance

Outstanding balance will include any remaining Pharmacare deductible you have in addition to any portion Pharmacare doesn't cover. This is often the difference between our 2022 fees vs the 2018 fees Pharmacare pays. Lastly if your prosthetic treatment includes components not covered by the Pharmacare Policy they will fall into this outstanding balance.

Most insurance companies will require a doctors prescription be submitted with the quote from Russell Prosthetics.
